

# **Key Influences on Humanistic Psychology Survey**

## **Participants Needed**

Dr. Louis Hoffman and students at Saybrook University are conducting a research study identifying influences on humanistic psychology. Participants will complete an online survey. The survey takes approximately 20-30 minutes. Questions ask about the most influential authors and scholarship. Students who meet the criteria can participate.

Participants should meet the following criteria:

1. Participants must have two-years of experience as a humanistic psychology professional.
2. Participants must speak English.
3. Participants must be 20-years old or older.

Please visit the following link to participate in the study:
