Textbook of Positive Psychodynamic Psychotherapy

An international edition of the Textbook has been prepared, and there will be translations in several languages. This book explains psychodynamics in an understandable way. At the Wiesbaden Academy (WIAP) it is the main book for students and trainers, and has been updated regularly during the past years. After translation it will be published by WAPP Press. Udo Boessmann and Arno Remmers are the editors and main authors, with small contributions from Thomas Gruyters, Hamid Peseschkian, Helmut Röthke and Sara Schneider

WAPP Committees 2021

Meet the active members! We are very pleased to introduce the teams of 3 WAPP Committees working hard to develop our Association. Government/ Membership and Finances, Trainings Standards and Publication tasks are distributed among different working groups and subcommittees. These committees are supporting the Board of Directors in many ways.

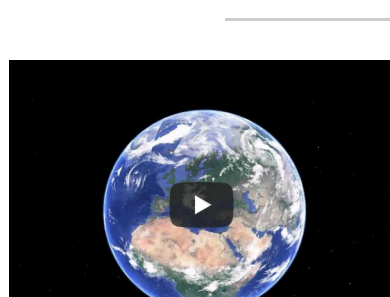

IFP Council

WAPP-president, Dr. Hamid Peseschkian, has been appointed to the Council of the International Federation of Psychotherapy (IFP). WAPP is a society member in the IFP, so this cooperation can deepen now and some mutual activities can be planned. All individual WAPP members who have paid their WAPP membership fee are automatically members of IFP. IFP was founded in 1934 and its first president was Carl Gustav Jung.

Crossref Member

We are glad to inform you that WAPP has become an official member of the Crossref system, which means that all current and future scientific articles published in the PPT journal "Global Psychotherapist" will be assigned an individual digital identifier - DOI. This will help index articles in scientific databases and other content systems, as well as develop the scientific impact factor of our journal.

World Congress #POSITUM2022

Meet a new inspiring location for the 8th WORLD CONGRESS of Positive Psychotherapy! Watch the video and you will know where we will meet! Let's look forward to the 8th World Congress of PPT on 2-7 October 2022!
